

Chore & Supplies Log

Use as a backup or extended listing of chores, maintenance jobs, or supply runs to keep the Home Base dashboard uncluttered. Handy for brainstorming or rough notes before adding to the main dashboard.

How to use: Keep this form near the Home Base. When a new chore, repair, or shopping need pops up, jot it down here before transferring to the main dashboard.

DATE ADDED	TASK / CHORE	SUPPLIES / PURCHASE NEEDED	RESPONSIBLE PERSON	COMPLETED (Y/N)

What goes in each column

1. Today's date.
2. What's the new job, fix, or reminder?
3. Anything to pick up or order?
4. Who's taking this on?
5. Mark Yes when finished.

If someone notices 'water trough leaking', they would write that here, add 'plumber's tape' under 'Supplies', and assign who's tackling it. But leave all rows blank for the buyer to fill.
