

Chore Flow Map Worksheet

Break down all chores by zone, frequency, and person responsible. Use one sheet per area or animal group.

**How to use:** Walk through your chosen homestead area. For each repeating task, fill in the columns below. Be as specific as possible. Keep one worksheet for each area (e.g., coop, garden, barn). Staple or combine in your Homestead Command Center.

| CHORE/TASK NAME | LOCATION/AREA | HOW OFTEN? (DAILY/WEEKLY/SEASONAL) | WHO USUALLY DOES IT? | NOTES (TOOLS NEEDED, EXTRA INFO) |
|-----------------|---------------|------------------------------------|----------------------|----------------------------------|
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |
|                 |               |                                    |                      |                                  |

What goes in each column

1. List the exact task (e.g., refill waterers, rake bedding, collect eggs).
2. State the precise area or animal group.
3. Mark the chore's frequency: daily, weekly, or seasonal.
4. Write the family member(s) or leave blank for now.
5. Record any helpful reminders (where supplies are kept, which tool to use, etc.).

For example, a row might read: Chore/Task Name: 'Deep clean nest boxes'; Location/Area: 'Chicken coop'; How Often?: 'Monthly'; Who Usually Does It?: 'Dad'; Notes: 'Use scrub brush from shed.' Remember, the worksheet you print will not have any sample data entered—it's a fresh template.
