

Seasonal Project Planner & Tracker

A spreadsheet tool for homesteaders to organize, schedule, assign, and track progress on larger seasonal homestead projects.

How to use it

Enter each new project on a blank row. Fill in the details as you plan, assign tasks, set deadlines, and update progress. Sort or filter by Priority, Status, or Deadline to focus on what matters next.

Quick start

1. List each seasonal project on the Project Overview sheet and set a priority.
2. For each project, break out key milestones or major tasks in the Project Timeline sheet.
3. Assign team members, set dates, and update statuses as work progresses.
4. Check off tasks when done and filter by incomplete projects or highest priorities.

Project Overview

What goes in each column

1. Short project title (e.g., New Garden Fence)
2. Season for project (e.g., Spring, Fall)
3. Project type (e.g., Fencing, Orchard, Animal Housing, Grazing)
4. Brief details/goals for this project
5. Planned start date
6. Target date for completion
7. Rank from 1 (urgent/important) to 3 (nice-to-have/lowest)
8. Mark as Not Started, In Progress, or Complete
9. Person responsible for this project
10. Other info or reminders

Project Timeline

What goes in each column

1. Match to Project Name in the overview sheet
2. Specific milestone or task (e.g., Clear fence line, Dig holes)
3. Who is responsible for this part
4. Deadline for this milestone or task
5. Describe progress: Not Started, In Progress, Blocked, or Done
6. Check (✓) when completed
