

Emergency Response & Farm Binder Printable Kit

Printable, fill-in forms for homesteaders to organize critical emergency information and procedures for their property, animals, and team.

How to use it

Download, print, and insert these sheets into your binder. Fill in each template with your farm's vital contacts, emergency plans, and procedures. Update regularly and store in a highly visible, accessible location.

Quick start

1. Print out all sheets and insert in your farm binder.
2. Fill in all known contacts and procedures.
3. Assign and record at least one backup per major emergency role.
4. Review and update twice a year or after any major change.
5. Store in a visible, accessible spot—tell everyone who helps on your farm.

Emergency Contacts

What goes in each column

1. What is this contact's role? (e.g., Vet, Neighbor, Fire Dept, Family)
2. Full legal name
3. Main phone number
4. Secondary number, if any
5. Preferred method (call, text, radio, etc.)
6. Any special instructions (e.g., language, after-hours procedures)

Animal Evacuation Plan

What goes in each column

1. Species/breed or group name (e.g., Dairy Goats, Hens, Rex the Dog)
2. How many animals in this group
3. Where will you move them in an evacuation (address or description)
4. What vehicles/equipment needed (e.g., trailer, carriers)
5. Critical feed, water, or meds to bring
6. Who will handle this group
7. Special handling notes (e.g., fearful, special needs)

Utilities Shut-off Instructions

What goes in each column

1. Type of utility (Water, Propane, Electric)
2. Precise location of shut-off (e.g., south side well house)
3. Step-by-step, in your own words
4. Wrench, key, or no tool needed
5. Who handles this in emergencies
6. When did you last verify operation
7. Other details, padlock codes, etc.

Veterinary & Medical Information

What goes in each column

1. Veterinarian's or doctor/clinic's name
2. Is this a vet, doctor, or medical clinic?
3. Contact number
4. Circle Y if accepts after-hours calls
5. Clinic or house call address
6. Which animals/people they serve
7. Access codes, context, etc.

Delegated Emergency Roles

What goes in each column

1. What needs to be done (e.g., animal transport, water shut-off, fire watch)
2. Who is primarily responsible
3. Who is secondary if primary is absent
4. When does this role activate (fire, flood, medical emergency, etc.)
5. What gear is required for this role
6. Reminders, tips, location info
