

Crop Planting & Harvest Log

Track the big milestones for each garden bed or row—when you sow or plant, and when you harvest. One sheet per bed/plot keeps things simple and clear.

How to use: Print a sheet for each bed, row, or major crop area. Write the name at the top. Add new lines for each planting, transplant, and harvest.

DATE	ACTION (PLANT, THIN, TRANSPLANT, HARVEST, CLEANED UP)	CROP/VARIETY	NOTES (PLANTING METHOD, YIELD, WEATHER, PROBLEMS)

What goes in each column

- 1. What happened and when?
- 2. Which crop?
- 3. Any details to help next time?

Amy noted on the log: '4/15/24', Action: 'Planted', Crop: 'Roma Beans', Notes: 'Direct-seeded after last frost.'
