

Monthly Review & Refresh Checklist

A simple, repeatable worksheet to walk you through updating your Command Center every month.

How to use: Print and bring this to your monthly review meeting. Use the prompts to guide your discussion and record all needed changes, updates, or notes.

What goes in each column

- List each animal group, chore set, or record log. Mark what needs update. Write what was done and by whom.
- Include: animal counts, health/med logs, chore assignments, seasonal tasks, supply needs, system issues.

For example, if you review goat chores, you might note that feeding times changed, worming logs were updated, and child #2 is now responsible for watering.

DATE	ANIMAL/CHORE/RECORD REVIEWED	UPDATE NEEDED?	ACTION TAKEN OR ASSIGNED	WHO IS RESPONSIBLE	NOTES
