

Upcoming Month Planner

Helps capture special dates, priorities, and any changes in routines for the new month or season.

How to use: Use this alongside your review checklist to plan key dates and focus areas for the month ahead.

What goes in each column

- 1. Fill in big seasonal jobs, vet visits, garden milestones, supply runs, or special family schedules.
- 2. Assign a person and target date for each, with a space for supplies or further information needed.

If you plan to rotate chicken pastures in mid-month, note the project, who does it, target date, and list supplies like fencing or portable shelter.

PRIORITY/PROJECT/TASK	PERSON RESPONSIBLE	TARGET DATE	NEEDED SUPPLIES OR INFO	NOTES/STATUS
